

THORANDSON®

Designed and engineered in Finland.

AIREDO

AIREDO AIR CLEANER

Each of Airedo high class air cleaners are carefully designed and manufactured by the exact needs of the customer.

DESIGN

The construction of the product allows to use many different cover materials - in all colors. This way Airedo will fit the interior exactly as wanted.

AIR FILTRATION

Airedo cleans the air chemically, which is the only way to remove gaseous impurities and odours. In Airedo's filtration system, five different chemical materials can be used. Also, the chemicals can be mixed if preferred.

TECHNOLOGY

FAN

Ebmpapst EC-motor.
Power/Airflow 250 liters/second (900 m³/hour).
Airflow is adjustable steplessly.

FILTERS

Four stages filtration by Halton filters
